

Why it's Important to Update Your Child's ID...

According to the National Center for Missing and Exploited Children (NCMEC), a single current photograph is imperative to recovering a missing child. What if you could have *that* photo **AND** fingerprints **AND** your child's vital information (height, weight, medical records, etc.) **AND** what if it all was on an AMBER ALERT compatible mini-CD?

You would have the most comprehensive recovery tool and MoCHIP provides all of this FREE of charge!

Please note: the key word here is CURRENT!
